

FAMOUS STRUCTURE PROJECT

Tech 9 - Mr. Johns

NAMES: _____ PERIOD: _____

Presentation: Choose a famous bridge, monument, or building. Research the building and put the information into a Google Slide presentation.

10 points each

- ___ Your names and name of famous bridge, monument, or building on a title slide
- ___ Full size height: _____ Scale height: _____
- ___ Full size width: _____ Scale width: _____
- ___ Chosen scale: _____
- ___ Location of structure: _____
- ___ Year structure was built: _____
- ___ Purpose of structure: _____
- ___ Interesting fact #1: _____
- ___ Interesting fact #2: _____
- ___ At least 3 photos of your structure being built.
- ___ At least 3 photos of your structure after construction was completed.

Model: Build a scale model of your structure using any materials you can find. Your grade will be based on accurate measurements, neatness, appropriate material for your structure, and your structure being recognizable.

10 points each

- ___ Scale is correct
- ___ Color is correct
- ___ Material is appropriate for the structure (ie: wood if real structure is wood)
- ___ Construction is neat (no visible glue, straight, clean, etc.)
- ___ Structure is easily recognizable

TOTAL = _____ / 150
